

SPIDERGO SERIES A

Health. Wealth. Opportunity.

This is your Invitation to Join the movement now and get in early before the Public Launch.

The world has changed.

AI

AI is transforming industries.

Longevity

People are living longer.

Careers

Traditional career paths are changing.

The need for reliable knowledge, practical skills and new opportunities has never been greater.

What problems are we *solving*?

01

Wealth Challenges

- Working harder, making little financial progress.
- Jobs under threat — AI and robotics squeezing roles.
- Harder to make and store money.
- Expenses rising faster than income.
- Reliance on a single source of income.
- Traditional career paths are no longer secure.

02

Health Challenges

- Not as strong or healthy as before.
- Worsening memory and focus.
- Weight gain and lost muscle tone.
- Declining energy — tired, unmotivated.
- Stress, anxiety and poor sleep are common.
- Conflicting advice; no practical roadmap.

"SpiderGo exists to help people master two of life's greatest challenges: building lasting wealth and achieving lifelong health."

We decode the science of *living longer* and the art of *earning more*.

HEALTH SOLUTIONS

Professionally guided fitness — HIIT, cardio, strength and dance — complemented by curated insights into nutrition, supplementation, wellness and longevity. Built to improve physical performance, enhance vitality and support long-term wellbeing.

WEALTH SOLUTIONS

Practical education and step-by-step guidance on building businesses from scratch — entrepreneurship, wealth creation, AI and emerging opportunities. Designed to help individuals develop new skills, identify opportunities and build sustainable income.

"Imagine a world where living longer and becoming wealthier are not separate goals, but part of the same journey."

Two product packages. *One destination.*

All in one ecosystem. One platform.

Series A is now open.

We're inviting a limited number of early participants to show interest in joining SpiderGo before public expansion.

Built on trust.

Transparency, accuracy, data protection and responsible communication remain fundamental principles of the organisation.

01

Higher Education Act, 1997

Educational products delivered in line with applicable principles and guidelines.

02

Consumer Protection Act, 2008

Fair marketing, transparent disclosures and protection of consumer rights.

03

Corporate Governance

Highest standards of ethical conduct and transparent operations.

"AI may change the way we work, but human trust will always remain the foundation of business."

The plan that will blow you away.

For those interested in joining, we'll share our compensation plan — and the wealth you can create with it.

This is where things start to get exciting.

The future won't wait.

*Neither should you.
Get in now, before the Public Launch.*
