

FOUNDING MEMBER DECK

This deck outlines **SpiderGo**, its *objectives* and how to be a part of it.

FOUNDED IN CAPE TOWN · 2024

Join us at the beginning of our journey and help lay the foundations of SpiderGo by *funding* its growth.

"Let's empower people with the knowledge and opportunities to live healthier, wealthier, and more fulfilling lives." CEO, Sitche Tol.

We show people how to *build wealth* and *live longer*.

PEOPLE HELPING PEOPLE

SpiderGo was established to help people navigate two of life's most important pursuits — building lasting wealth and achieving long-term health — through education and community.

"A trend is emerging globally: companies are generating more revenue with fewer people than ever before. AI is accelerating this shift — enabling individuals to perform work that previously required entire departments."

We believe the future will see millions of AI-enabled companies led by one or two founders generating millions in revenue.

With technology-powered tools and scalable network distribution, SpiderGo gives affiliates the opportunity to become the Founder and CEO of their own modern company."

"SpiderGo was built for people who want more from life: greater health, greater wealth, and greater opportunity".

What problems are we *solving*?

01

Wealth Challenges

- Working harder, making little financial progress.
- Jobs under threat — AI and robotics squeezing roles.
- Harder to make and store money.
- Expenses rising faster than income.
- Reliance on a single source of income.
- Traditional career paths are no longer secure.

02

Health Challenges

- Not as strong or healthy as before.
- Worsening memory and focus.
- Weight gain and lost muscle tone.
- Declining energy — tired, unmotivated.
- Stress, anxiety and poor sleep are common.
- Conflicting advice; no practical roadmap.

"SpiderGo exists to help people master two of life's greatest challenges: building lasting wealth and achieving lifelong health."

We decode the science of *living longer* and the art of *earning more*.

HEALTH SOLUTIONS

Professionally guided fitness — HIIT, cardio, strength and dance — complemented by curated insights into nutrition, supplementation, wellness and longevity. Built to improve physical performance, enhance vitality and support long-term wellbeing.

WEALTH SOLUTIONS

Practical education and step-by-step guidance on building businesses from scratch — entrepreneurship, wealth creation, AI and emerging opportunities. Designed to help individuals develop new skills, identify opportunities and build sustainable income.

"Imagine a world where living longer and becoming wealthier are not separate goals, but part of the same journey."

"We believe the future belongs to people who can build wealth without sacrificing their health."

What sets us *apart*.

"We don't create information overload. We simplify complexity and deliver practical action."

A scalable *growth strategy*.

SpiderGo combines digital commerce with community-driven referral marketing. Rather than relying on expensive advertising, it grows organically through trusted personal recommendations alongside traditional retail acquisition channels.

* Projections are estimates based on current assumptions and are subject to change.

"People trust people. That simple principle sits at the heart of our growth strategy."

Exponential growth, *AI-amplified*.

DUAL-CHANNEL STRATEGY

Traditional retail marketing, digital advertising, content marketing and direct customer acquisition — combined with referral and affiliate programmes. The result: broader market reach, brand visibility and multiple pathways for sustainable expansion.

AI-POWERED AFFILIATES

Affiliates can make use of an AI Agent platform to assist with customer engagement, faster sales and general business development — combining human relationships with intelligent automation for productivity and scale.

— *"The future belongs to those who combine human relationships, AI, and scalable digital platforms."*

Built on *trust*.
